

Fraternity and Sorority Life
at Virginia Tech

OUR VISION: To be a fraternity and sorority community inspiring
lifetime engagement in the spirit of *Ut Prosim* (That I May Serve).

Guide to Fraternity and Sorority Life 2016-2017

Fraternity and Sorority Life at Virginia Tech

The fraternity and sorority community currently encompasses more than 5,000 students, which represents just about 20 percent of the undergraduate population; hence, fraternity and sorority life is incredibly dynamic at Virginia Tech. As such, there are three main aspects of which great focus will be placed in order to build upon the solid foundation of the interfraternal membership experience at Virginia Tech: community development, leadership and learning, and strategic planning.

The **vision** of Fraternity and Sorority Life is to be a fraternity and sorority community inspiring lifetime engagement in the spirit of *Ut Prosim* (That I May Serve).

The **mission** of Fraternity and Sorority Life is to support and engage members of the fraternity and sorority community by promoting lifelong learning, empowering personal growth, inspiring intellectual development, cultivating leadership, and encouraging philanthropy service, all through the shared values of brotherhood and sisterhood.

The strategic goal areas for Fraternity and Sorority Life:

Promoting Lifelong Learning

As students and alumni/ae members in the interfraternal community learning about themselves through multiple contexts, their **curiosity** develops through a myriad of opportunities in which to support them as scholars, leaders, mentors, and engaged citizens of a global community.

Empowering Personal Growth

The interfraternal community will engage in opportunities, which propel the aspects of strengths and learning life skills (negotiation, delegation, change management, etc.) in order to deepen the **self-understanding** of its members and alumni/ae.

Inspiring Intellectual Development

Members will embrace scholastic achievement and intellectual development as cornerstones of the interfraternal experience and value aspects such as **integrity, civility**, and honor through all living and learning environments.

Cultivating Leadership

The fraternity and sorority community will experience innovative and inspiring leadership development opportunities, which will serve as catalysts for **courageous leadership**.

Encouraging Philanthropy and Service

Members of the interfraternal community will be mindful of global citizenship and embrace servant leadership as a way of life, honoring the University's motto, ***Ut Prosim*** (That I May Serve).

Shared Values of Brotherhood and Sisterhood

Through the development of community and connectedness, membership inspires momentum for living our values for our entire lifetime.

Our Councils

Leadership within Fraternity and Sorority Life is provided by four governing councils, whose primary purpose is to assist in developing community and a shared experience amongst each of our 55 chapters.

Interfraternity Council

Virginia Tech's largest governing council supports more than 25 chapters of the campus' traditional-majority men's general fraternal organizations. The IFC plans and implements various educational and leadership programs for its member chapters, while also providing administrative guidance for policy, procedure, recruitment, academic issues, and governance.

National Pan-Hellenic Council

NPHC is the governing and coordinating council for traditionally African-American national collegiate fraternal organizations. The primary purpose and focus is community awareness and action through educational, economic, and cultural service activities. NPHC plans and implements numerous programs for its chapters and the community at large, including traditional step shows, educational programming, and community service events. Additionally, the NPHC stresses a lifetime commitment to the goals and ideals of each of its respective organizations

Panhellenic Council

PHC is the governing council responsible for supporting the 12 National Panhellenic Conference chapters at Virginia Tech. These groups represent the traditional-majority general women's fraternities and sororities. PHC operates on a system of mutual cooperation in order to advance the sorority community in the best way possible. The council is responsible for the implementation of educational programming, the coordination of the annual formal sorority recruitment program, leadership development initiatives, and philanthropic and service efforts.

United Council of Fraternities and Sororities

UCFS is the youngest governing council at Virginia Tech, having been originally founded as United Council of Fraternities and Sororities in 2004. The council brings together multicultural, faith based, service based, and special-interest fraternities and sororities.

Our Chapters

In the pages that follow, you will learn more about our chapters that comprise Fraternity and Sorority Life. While Virginia Tech is home to many Greek-lettered organizations (professional, honor, service, and local), the chapters in the pages that follow are currently recognized by Fraternity and Sorority Life as men's and women's general fraternities/sororities and receive guidance in the areas of community development, leadership and learning, and strategic planning. Each of these chapters is supported by an inter/national headquarters, which provides membership education, leadership programming, educational resources, and risk management programming materials. Alumni/ae support in the form of chapter advisory councils and alumni/ae associations aid in collaborative efforts to promote values-based, purposeful experiences for chapter members.

On each chapter's page you will find contact information for the president and chapter advisor – who you can connect with to learn more about that chapter's experience and what they offer to advance Fraternity and Sorority Life. Included within in each chapter page is an overview of information as reported by the organization during the *Legacy Report* process described on the next page. Chapters are not required to participate in this process, so the overview on each page is based on what was provided by the chapter, and the assessment offered by team members within Fraternity and Sorority Life.

These factors may not be inclusive of the entire experience offered by a chapter, so you are highly encouraged to engage in conversation with the chapter president, chapter advisor, or inter/national fraternity/sorority to learn more about each organization.

The following chapters are not recognized by Virginia Tech; thus have no relationship with the university as they serve a loss of recognition for violations of the Student Code of Conduct (date in parentheses represents the earliest semester they will be considered for return): Kappa Sigma (Fall 2018); Alpha Epsilon Pi (Spring 2021); Kappa Delta Rho (Fall 2021); Theta Delta Chi (Spring 2021) and Alpha Phi Alpha (Fall 2026). If a chapter has had its recognition revoked by Virginia Tech it is because they have had egregious and/or repeated violations of the Student Code of Conduct and this has been established through a formal hearing administered by the Student Conduct office. At times, an inter/national headquarters may decide to allow the chapter to operate locally without recognition from Virginia Tech. Information regarding these chapters can be obtained by contacting the Director of Fraternity and Sorority Life.

Leadership Education

The cultivation of leadership capacity among the men and women participating in fraternities and sororities is of paramount importance to the Division of Student Affairs. Fraternities and sororities nationally, and at Virginia Tech particularly, are praised for their ability to engage students in campus life, facilitate development of meaningful friendships, and enrich the overall college experience. On the contrary, however, fraternity and sorority participation appears correlated with negative behaviors that cumulatively detract from the potentially powerful educational role membership can play in a student's learning.

At Virginia Tech, we will embrace a perspective undergirded by three prevailing assumptions: 1) Fraternities and sororities provide for a powerful learning laboratory that can have a profound impact on a student's undergraduate experience; 2) Cultural change in our fraternity and sorority community is necessary and difficult, and students can and will rise to the challenge if equipped to do so; 3) A comprehensive leadership development program that is longitudinal in approach provides the best framework for facilitating cultural change.

Fraternity and Sorority Life is committed to developing a full range of leadership initiatives aimed at equipping fraternity and sorority leaders to facilitate cultural change in their organizations. One such initiative is the *Fraternal Leaders Institute: Inspire*. This two and one-half day leadership institute invites student leaders to increase their sense of belonging; cultivate their knowledge to be a positive social change agent; and advance Fraternity and Sorority Life at Virginia Tech.

Whether it's *FLI: Inspire*, an emerging leaders program, think tanks, or roundtables, the primary driver for leadership development are the conversations that occur when small groups of members come together.

Experiences that promote opportunities to convene and engage in meaningful conversation about what matters most shape our efforts in community development and leadership.

Legacy Report

The Fraternity and Sorority Life office is committed to advising and coaching our chapter leaders to effectively manage their organizations as a member of our community. Grounded in our mission, vision and strategic goal areas, along with the Division of Student Affairs' [*Aspirations for Student Learning*](#), the Legacy Report is an annual document compiled by chapter officers to help them reflect on, and plan for, success in the following areas of chapter life:

- Goal Setting/Planning
- Service/Philanthropy
- Values-Based Experience
- Recruitment/Intake
- Scholarship and Academics
- Risk Reduction/Risk Education
- Membership Development
- Community Involvement
- Recognition
- Assessment

The Legacy Report is submitted at the conclusion of each fall semester by the chapter president, and a member of the Fraternity and Sorority Life professional staff will review the report, offer feedback, and meet with the chapter president in the spring semester. For those chapters that transition leadership between the fall and spring semester, it will be important that the outgoing chapter president provides a copy of the Legacy Report to the incoming president, or involves them in writing the report. Supporting documents and letters are not required, nor expected in completing the report.

Of particular interest to the Fraternity and Sorority Life office is what will help chapter leaders plan for chapter success, and manage the needs of a dynamic organization. The report consists of essay-style questions for each area of chapter life included above.

Chapter leaders are encouraged to involve educational/leadership consultants from their inter/national organizations or alumni/ae volunteers in helping them write this report, particularly if they have been instrumental in helping the chapter be successful in these areas.

The following is a timeline for the Legacy Report process:

- December: The Legacy Report is due.
- February – March: Evaluations completed by council advisor and coaching sessions with chapter president.

Chapter Profiles

One aspect of understanding the community is through chapter health – an important component for understanding what's great about being Greek at Virginia Tech.

The following pages provide insight into the chapters that make up the Fraternity and Sorority Life community at Virginia Tech. Indicators are offered for each area of chapter life based upon the information provided by each chapter in the Legacy Report. The Legacy Report is a voluntary submission by the chapter, and not required. In those cases where a chapter chose not to submit a Legacy Report, no indication of chapter life is offered.

Each chapter profile also includes perspective concerning scholarship and student conduct. The chapter's average GPA for the fall and spring semester was calculated and it is indicated if the chapter was above, or below, the all undergraduate GPA (3.180). Information regarding student conduct was determined based on the chapter's disciplinary history for three years. "Violations" refers to if the chapter was found responsible for a university violation.

All information contained in these chapter profiles is based off of the 2015 calendar year.

What is offered in the pages that follow should not be the sole basis for understanding the community. Members, potential members, families, and friends are encouraged to contact the chapter or Fraternity and Sorority Life for clarification or context regarding this information. This information is not utilized for determining annual chapter awards within Fraternity and Sorority Life or other recognition.
